Quality and margin are both essential for our business to succeed and the Country Range products help us achieve both.

OWNER, CAFÉ

Created for the Makers

At the heart of everything we do is you! Country Range was created specifically to meet the needs of caterers, who take pride in making food for people. Every one of our products is developed for use in a professional kitchen, with your needs in mind. We sweat the details because we know they matter to you.

We know how much consistent quality matters. You need to be able to rely on good quality, good value products to maximise your margins. This is why all our products are BRC (British Retail Consortium) accredited and tested thoroughly through benchmarking and blind taste tests. Once a product is in our range we don't stop there. Our dedicated in-house Quality Manager works closely with our development chef and manufacturers to make sure that every Country Range product meets the standard to be used in foodservice.

We are always adding to the range to keep up with the latest trends and market needs. This guide is a snapshot in time, you will always find our full range online and through your Country Range wholesaler.
